Indian Institute of Technology,
Bombay (IITB)

Indian Institute of Forest
Management, Bhopal (IIFM)

Regional Science Centre, Bhopal
(RSC)

Barkatullah University, Bhopal
(BU)

Bamboo has clear and proven potential to change the country

Bamboo is a resource of the people. Bamboo is commonly processed by the people. Wherever possible, programs for the people should include bamboo as a material - that would provide a market and kick start the bamboo economy, leading to investment, and growing, processing, and higher levels of value addition. The approach: of the people, by the people, for the people needs to be taken to mainstream bamboo. Bamboo can generate millions of jobs in rural areas and also urban areas. Currently, an estimated 9 million people are employed in the bamboo sector. This can increase several-folds. The Webinar Series is intended to review the status of bamboo-based development in the country, identify various issues and necessary interventions, and develop a strategy white paper for bamboo-based sustainable development.

Webinar 8

Theme – Bamboo Technology, Machinery & Tools.

Date – 24th September Timing- 3 -5PM (IST)

Webinar Link- <https://meet.google.com/sbq-vbxt-pap>

Panellists (10 min each) –

Dr. U K Subuddhi, IFS, Mission Director, MP State Bamboo Mission

Dr. R J Rao, Vice-Chancellor, Barkatullah University, Bhopal

Dr. Pankaj Srivastava, IFS, Director – Indian Institute of Forest Management, Bhopal

Dr. Chauru Chandra Korde, Faculty, CTARA, Indian Institute of Technology, Bombay

Mr. Krishnendu Choudhury, Project Coordinator Regional Science Centre, Bhopal

Dr. AK Bhattacharya, IFS (R), Technical Advisor, Bamboo Development Authority, Balaghat (**Coordinator**)

Key Speakers (30 min each)

1. Mr P C Gupta

2. Mr Rohit Agrawal

About The Speakers

Prem Chand Gupta: Is Proprietor of PRAGATISHEEL ENGINEERING and has worked with three manufacturers of bamboo processing machines at Dewas (MP) for the last 18 years. The factories are Garnet Tools (from 2003 to 2006), Anil Enterprises (2006 to 2008) and Arihant Engineering (2008 to 2013) and his own Company PRAGATISHEEL ENGINEERING (ISO Certified) working from 2013. In this period we have supplied many Bamboo Processing Machines all over India and Abroad. They have 10000 Sq. ft. Work Space and we are working with 13 Nos educated and technical Employees. PRAGATISHEEL ENGINEERING, 122, SUCITY – 1, BAWADIA, A B ROAD, Dewas, MP. are among the distinguished organizations engaged in Manufacturing, and Exporting pristine assortment of Bamboo Processing machines. Offered range of Bamboo Processing Machines consists Bamboo Cross Cutting Machine, Bamboo Auto Splitter Machine, Bamboo Slicer With Knot Removing Machine, Bamboo Outside Knot Removing Machine, Bamboo Slicer Two Machines, Bamboo Stick Sizing Machine, Bamboo Round Stick Making Machine, Bamboo Square Stick Ma Machine, Vacuum Pressure Impregnation Plant, Bamboo Dryer, Bamboo Carbonizing Plant and many more. All these machines and Plants are manufactured under the strict supervision of our experts, in accordance with the international quality standards.

Rohit Agarwal: Is a thought leader, strategist and a passionate entrepreneur. Currently, serves as the CEO of one of the leading Bamboo processing technology companies in India. Under his leadership, the company has been successfully executing on its vision to create hundreds of entrepreneurs in Rural and Tribal India. He has successfully led development of technologies in the Bamboo Processing industry to produce extremely cost networked in his industry and is a recognized thought leader. He gets invited to various conferences, forums, seminars as a speaker and panellist. He loves organizational building, product development, technology innovation, Training, process engineering etc. He is driven by excellence in all his pursuits. Sir believes in developing an ecosystem for an industry to flourish. Over the last decade, sir has been working closely with various State and Central Government departments, self help groups, NGOs, Trade groups and associations etc to develop the right kind of bamboo products using the locally available bamboo and processing them with customized technology. One of his mottos is 'make in India with bamboo'.
